

FAQ-052-OPPORTUNITIES-How to import pictures of a vehicle's counter-estimate?

Find out how to incorporate pictures which illustrate a vehicle's defects into a counter-estimate.

1

In the context of a counter-estimate of a used vehicle, you can associate visuals with the trade-in in question to illustrate the defects found.

The "**Valuation and costs**" tab allows you to gather useful information when trading in a vehicle.

You can access it from the used vehicle file.

A new filter called "**Trade-in**" has been added to the vehicle stock table, so you can easily search for vehicles that have been traded in.

The screenshot shows the 'Vehicles' management interface. At the top, there are buttons for '+ New', 'Create a stock auction', 'Export', and a menu icon. A search bar contains the text 'DF415GF'. Below this, there are filters for 'Display' (set to 'All vehicles') and 'Please select a status'. The 'Such as' filter is set to 'From a trade-in'. A search dropdown menu is open, showing 'Please select' with a search icon and two options: 'Yes' and 'No'. Below the search dropdown, there are 'Filters applied' and 'Entity' (set to 'bee2link PP Audrey V.'). At the bottom, there is a 'Sorted by' dropdown set to 'Entry into stock' and a list of column headers: 'Internal', 'Make', 'Model', 'Version', 'Type of ve...', 'Status', 'Publication status', 'Energy', 'Guara...', 'Warranty', and 'Trade in'.

5

This information is displayed in a specific "**Trade-in**" column, which must be added manually using column management.

Internal...	Make	Model	Version	Type of ve...	Status	Publication status	Energy	Guara...	Warranty	Trade in

There is also a sorting system to differentiate between vehicles from trade-ins and those from other origins:

The screenshot shows a web interface for vehicle management. At the top, there are search filters: 'Display' set to 'All vehicles', a status dropdown, and a 'Column management' link. Below this, a filter 'Such as' is set to 'From a trade-in'. The 'Filters applied' section shows 'Entity' set to 'bee2link PP Audrey V.' and indicates '952 vehicles' are displayed. A 'Sorted by' dropdown is set to 'Entry into stock'. A 'Manage sorting' modal is open, titled 'Manage sorting in order of importance'. It has a checkbox for 'Trade in' which is checked, and a dropdown menu set to 'No + Yes'. The modal also has 'Save', 'Reset', and 'Cancel' buttons. In the background, a table of vehicles is visible with columns: Type of ve..., Status, Publication status, Energy, Guara..., Warranty, and Trade in. The table contains several rows of vehicle data, including models like 'UC - Individual', 'DC', and 'NC', with various statuses and trade-in indicators.

Type of ve...	Status	Publication status	Energy	Guara...	Warranty	Trade in	
UC - Individual	Stock de vente	Reserved unlim...	Not publishable	Diesel	-	bee2link warranty	✗
DC	Livraison	Not publishable	Not publishable	Essence	No	Garantie OR	✗
NC	Sortie	Not publishable	Not publishable	Electrique	No	-	✗
UC - Individual	Livraison	Not publishable	Not publishable	Diesel	Yes	bee2link warranty	✗
UC - Individual	Livraison	Not publishable	Not publishable	Essence	No	bee2link warranty	✗
UC - Individual	Stock de vente	Reserved unlim...	Not publishable	Essence	-	Constructeur	✗
