How do I process a factory-ordered NV?

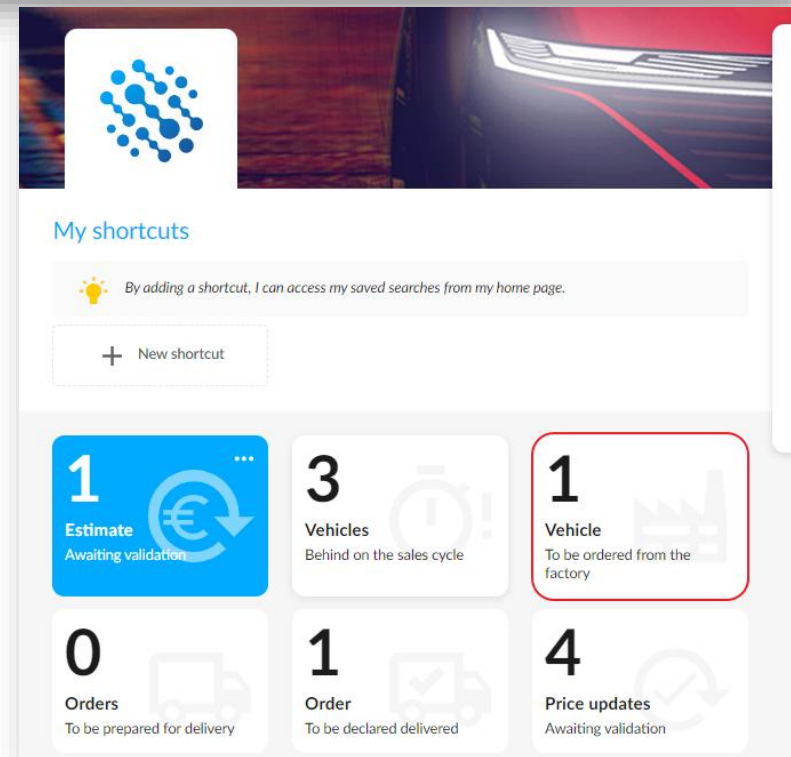

How do I process a factory-ordered NV

🔗 The customer order is confirmed (« won » status) in the « **Opportunities** » module. You have now to place the order with the manufacturer.

🔗 From the homepage, click on the « **To be ordered from the factory** » tile.

From the displayed list, select the car to be ordered to display its configuration.

The vehicle details page will open on the « Overview » tab (1). The sub-menus containing the equipment and options chosen in the order will be opened by default. If accessories and services have been added in the customer order, you will find them by clicking on the « Additional products » tab (2).

At the bottom of the window you will find various options:

- A field (1) for entering the internal number of your order.
- A **Consult order no. 4477** button (2) to access the customer order (to view it, modify it or cancel it)
- A **Cancel** button (3) which will enable you to come back to the new vehicles list « **To order from the factory** ».
- A button **Validate** (4) to be used once you have checked or reproduced the configuration of the vehicle ordered in the manufacturer's tool.

When validating the vehicle to be factory-ordered, the vehicle will switch to the « **To be prepared for delivery** » status. A tile displaying all vehicles at this stage is available on the home page.
