## Tutorial - Stock auctions PriceBack

FAQ - Stock auctions PriceBack

# Contents

Prerequisites : match the used car to the reference datas before starting the stock auctions

## 1. Sending the connection link to the car trader

- 1) Sending the connection link to the car trader
- 2) Creation of a PriceBack account

## 2. Presentation and management of the different types of Stock auctions PriceBack

- 1) Creation of mailing list(s)
- 2) How to launch a stock auction
  - A) Special case
  - B) Presentation of the processes used to create the different types of stock auction :
  - C) How to follow a unitary car auction ?
  - D) How to follow an auction on a car lot ?
- 3) Managing the release of UVs from a stock auction :

# Prerequisites

## OpenFlex :

- ❖ You must have access to the **Opportunities, Customers** and **Vehicles modules** in OpenFlex..
- ❖ Have a seller or a sales manager user account.
- ❖ Have customers of the "**Automotive Professional**" type.
- ❖ The **response time** for car professionals has to be set in **Settings → Pricing policy → Sales value → Automatic destination → Setting the response time for automotive professionals**.

## PriceBack :

- ❖ To have a **PriceBack account**.
- ❖ Have a **single-use email address** for account creation.

# 1

Sending the connection link to the car  
trader  
&  
Creation of a PriceBack account

# 1/ Sending the connection link to the car trader

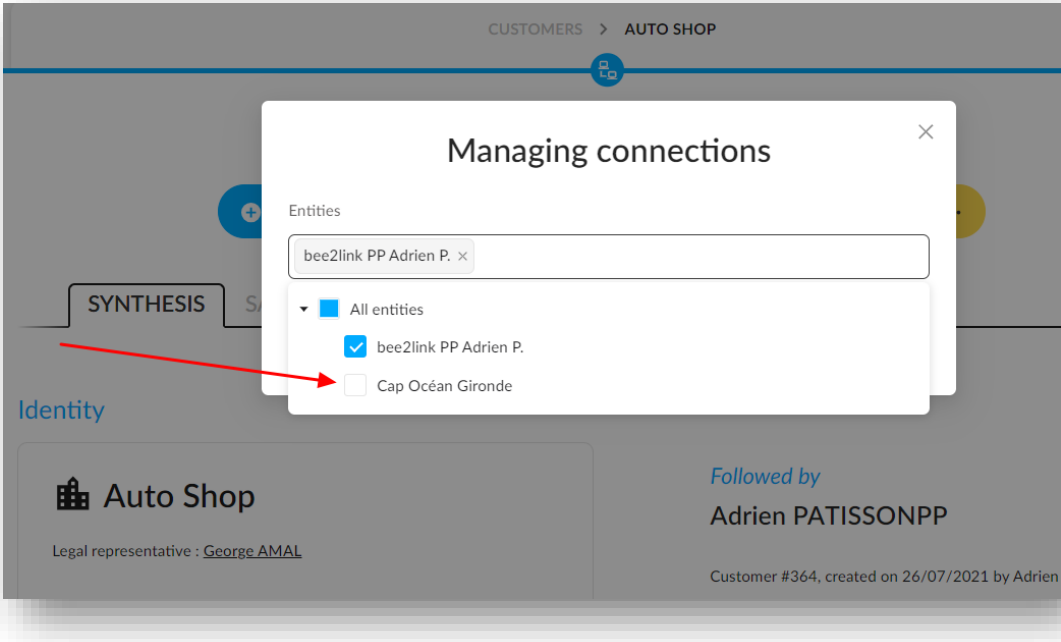

- ❖ Create a customer file for an **automotive professional** in the "Customers" menu by entering their e-mail address. If the professional is a bidder, enter the following address:
  - ❖ Auto1 : [apisupport@auto1.com](mailto:apisupport@auto1.com)
- ❖ Then, click on the "Connect with the professional" button to send the connection link (*image 1*).
- ❖ The professional will then receive the necessary instructions by e-mail to connect to their OpenFlex – PriceBack space.
- ❖ Once the connection has been established, the information will be displayed on the car trader's file (*image 2*). They will then be able to take part in the auctions on the used car stock.
- ❖ The distributor can modify or delete the merchant's connection with certain entities in a group at any time by clicking on the manage connections button.

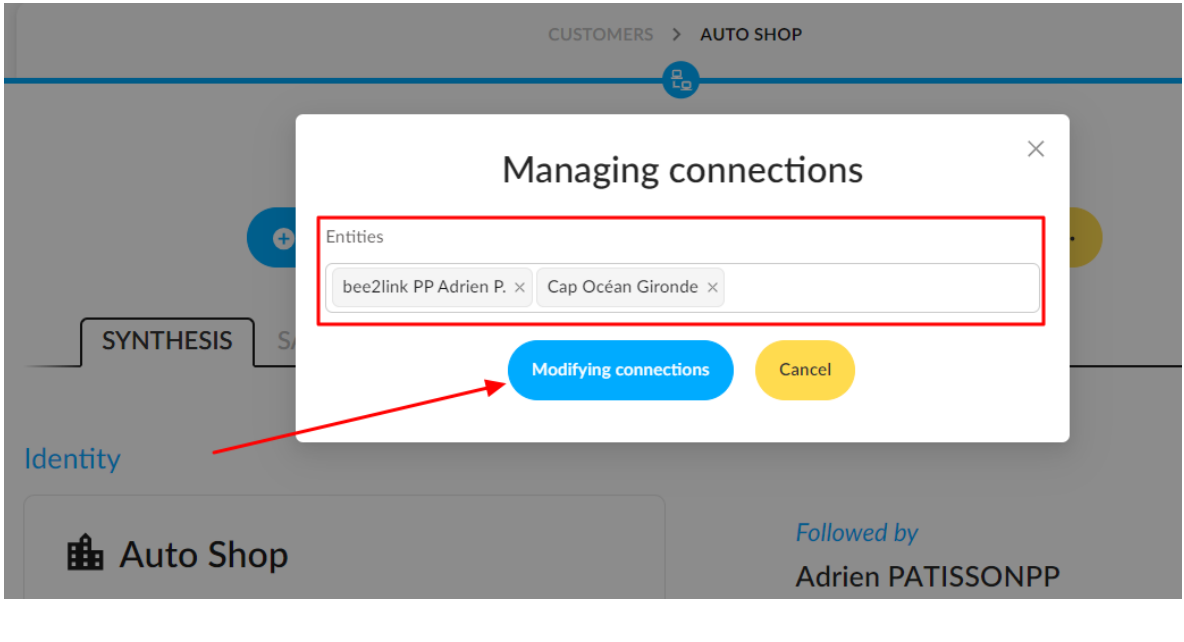

Reminder:

- 🔗 To save you time, you can establish the connection between a merchant and the various entities in a group in a single action.
- 🔗 The list of distributors who will be partnering with the merchant will be included in the invitation e-mail that the merchant receives.

First connection with the merchant :

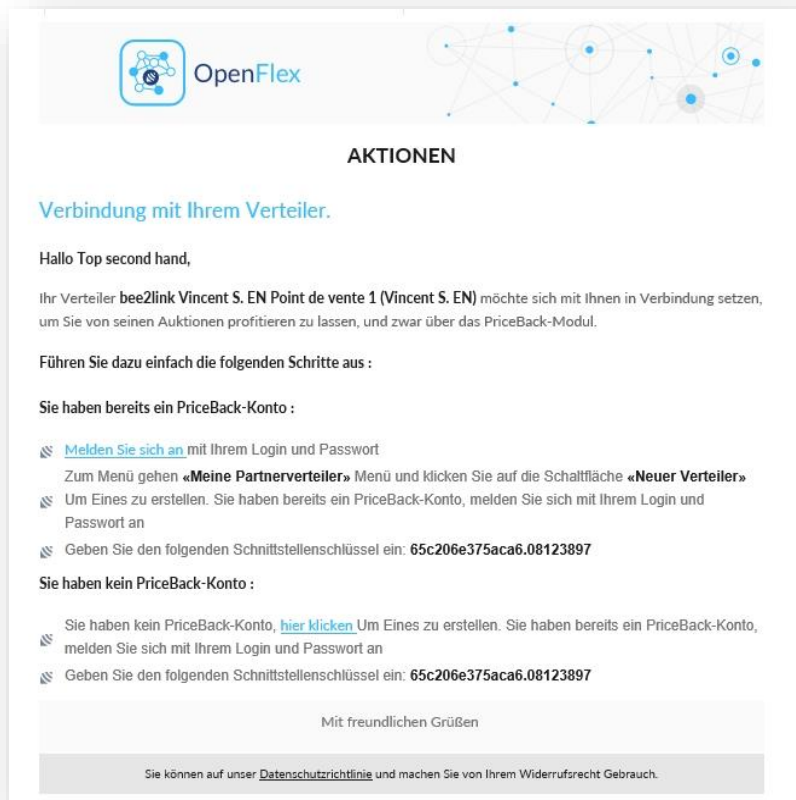

Manage the merchant's connections with the various entities in a group:

## 2/ Creation of a PriceBack account

- As soon as the distributor has sent a connection request, the trader will receive an e-mail inviting them to create their PriceBack account.
- Simply follow the instructions and complete the mandatory fields.
- The interfacing key in use will be **automatically** restored.

**OpenFlex**

**AKTIONEN**

**Verbindung mit Ihrem Verteiler.**

Hallo Top second hand,

Ihr Verteiler **bee2link Vincent S. EN Point de vente 1 (Vincent S. EN)** möchte sich mit Ihnen in Verbindung setzen, um Sie von seinen Auktionen profitieren zu lassen, und zwar über das PriceBack-Modul.

Führen Sie dazu einfach die folgenden Schritte aus :

Sie haben bereits ein PriceBack-Konto :

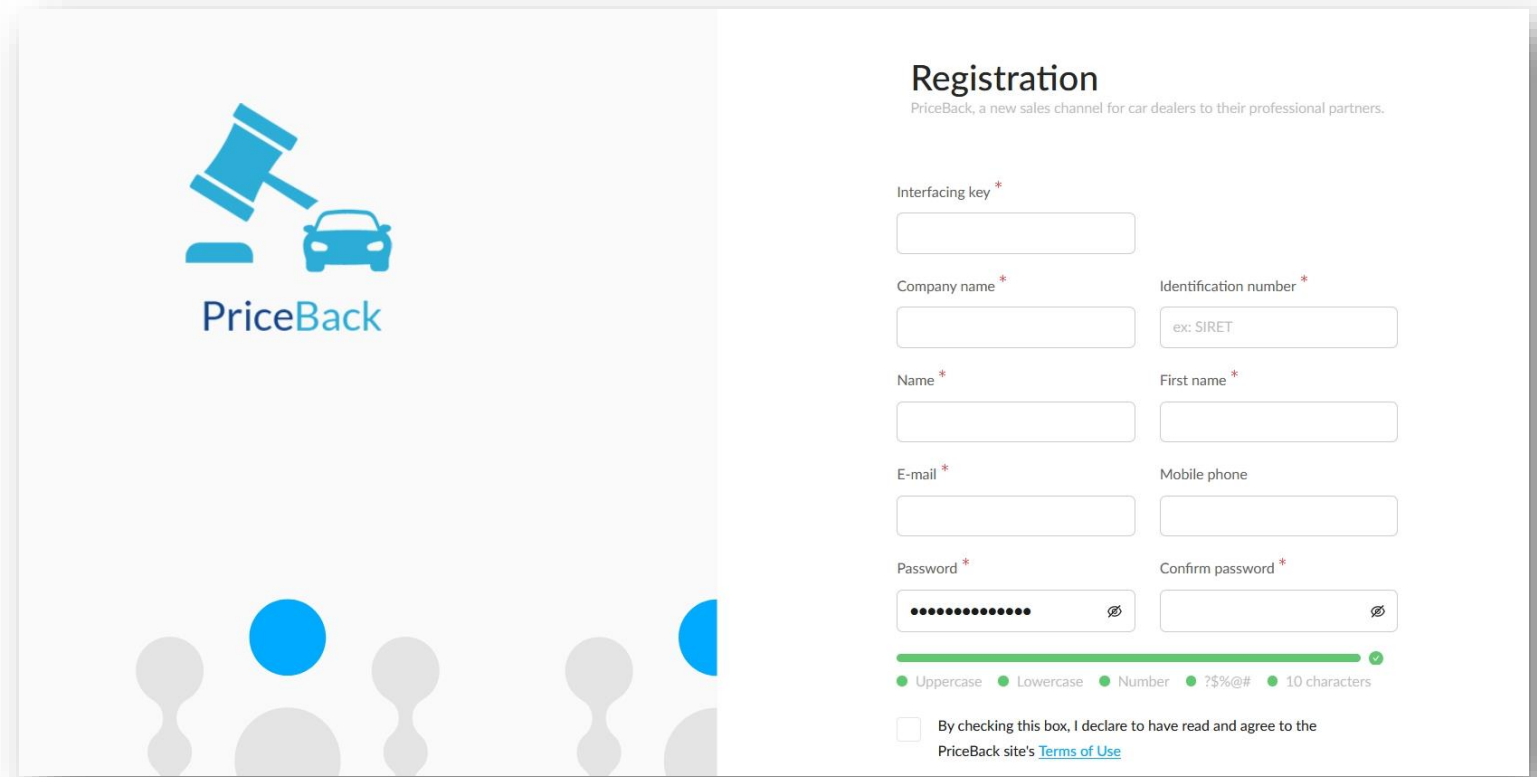

- Melden Sie sich an mit Ihrem Login und Passwort  
Zum Menü gehen **«Meine Partnerverteiler»** Menü und klicken Sie auf die Schaltfläche **«Neuer Verteiler»**
- Um Eines zu erstellen. Sie haben bereits ein PriceBack-Konto, melden Sie sich mit Ihrem Login und Passwort an
- Geben Sie den folgenden Schnittstellschlüssel ein: **65c206e375aca6.08123897**

Sie haben kein PriceBack-Konto :

## Presentation and management of the different types of Stock auctions PriceBack

# 1/ Creation of mailing list(s)

- Before creating stock auctions, the fleet manager can create one or more mailing lists. This will allow him to target some car traders according to the lots made available at stock auctions.
- To be added to a mailing list, the connection with the car trader must already have been established (**see Chapter 1**).
- You can create as many mailing lists as you like.
- Please note:** if no mailing list is set up or selected when an auction is created, all professionals connected to the distributor will receive the invitation without exception.

- When creating a list, add a title and then select in the left column **1** the professionals to whom you wish to send invitations to the stock auctions.
- The professionals selected will be listed in the right column **2**. To remove a professional from the list, simply uncheck the box in front of the professional's name.
- Once the list has been created, the distributor must validate it by using the button at the bottom of the window.

Selecting automotive professionals

By default, your auctions are sent to all the automotive professionals with whom you are connected. You can send your auctions to only some of these professionals and create lists.

Create a list Reset Cancel

FAQ - Stock auctions PriceBack

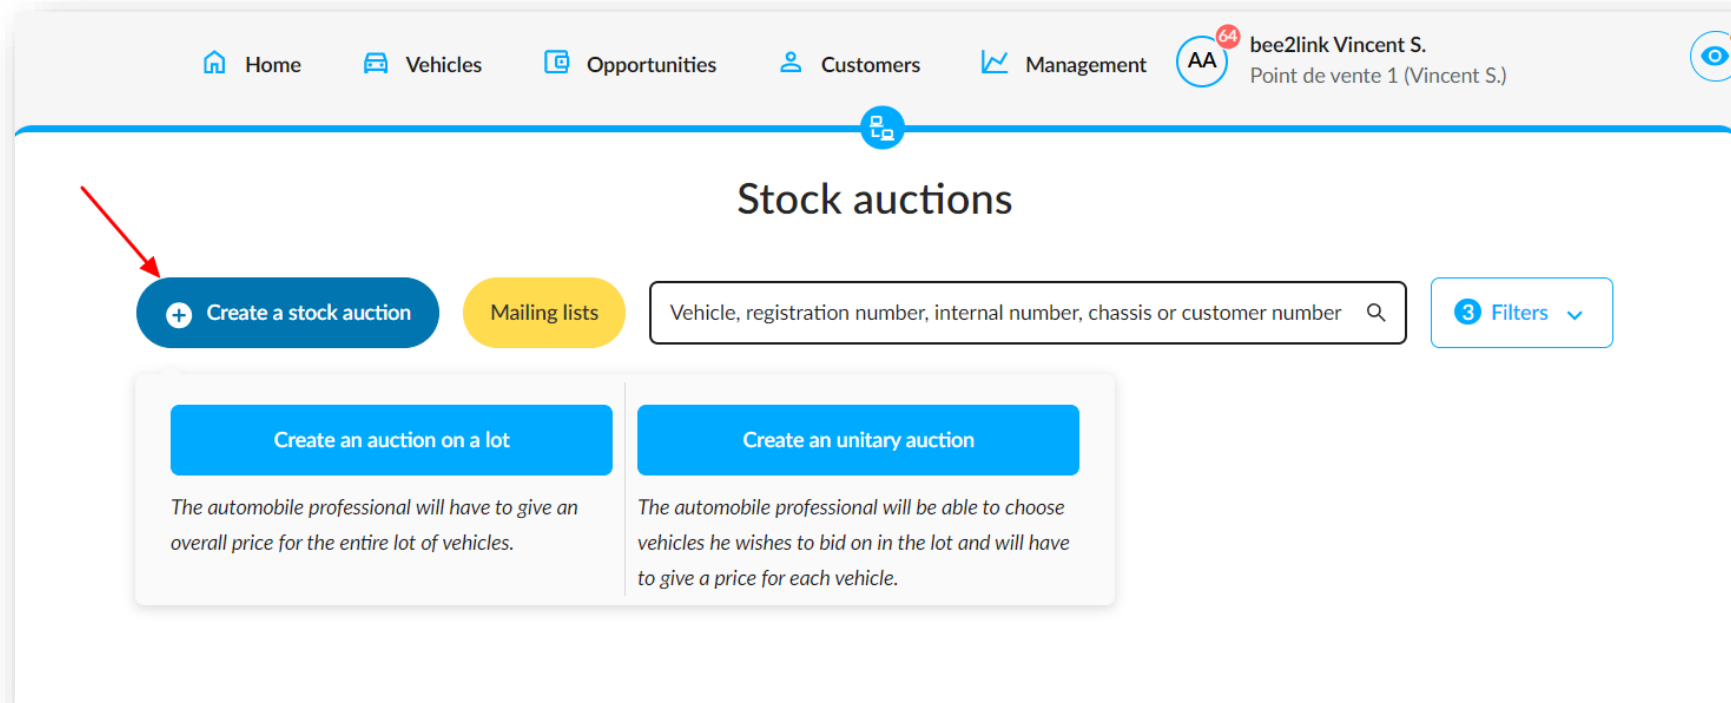

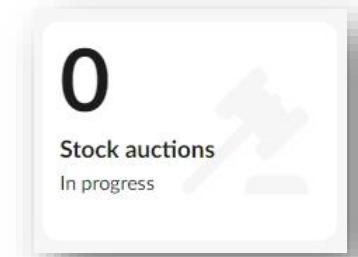

They will also be able to make changes afterwards by modifying the list of their choice. To do this, they will have 4 buttons at their disposal:

- "Save" to save the changes.
- "Reset" to go back to the changes you made
- "Delete" to delete the list.
- "Cancel" to return to the mailing list selection/creation screen.

The screenshot shows a modal window titled "Modify the list" with a close button (X) in the top right corner. Below the title, there is a text input field labeled "Name of the list" containing the word "Auction". Below this, it says "2 automotive professionals selected". The main area is divided into two columns. The left column is titled "Connected automotive professionals" and contains a search bar labeled "name of the professional" with a magnifying glass icon. Below the search bar is a list of five items, each with a checkbox: "AUTO 71", "Enchériste DEMO", "sarl", "SARL LA BONNE OCCAZE", and "Sarl Occasion select". The right column is titled "Automotive professionals who will receive the auction" and also contains a search bar labeled "name of the professional" with a magnifying glass icon. Below the search bar is a list of two items, each with a checked checkbox: "sarl AUTO 78 OCCASION" and "Top used cars". At the bottom of the modal, there are four buttons: "Save" (blue), "Reset" (yellow), "Delete" (yellow), and "Cancel" (yellow). These four buttons are enclosed in a red rectangular box.

# 2/ How to launch a stock auction

- There is a tile on the home page for creating and tracking stock auctions.
- Two types of auction will be possible:
  - Lot auction:** auction of a batch of vehicles that cannot be split up and for which an overall price is quoted.
  - Unit auction:** automotive professionals can select the vehicles of their choice from among those offered in the auction. They will have to make a commitment by setting a price for each of the vehicles in which they are interested.

## A) Special case

It is possible to add a **VO intended for private individuals** to a stock auction under **3 conditions**:

- 1) The VO concerned must be in "**Sales stock**" status or it must be "**Saleable**".
- 2) You will need to "**Authorise its sale to professionals**" by ticking the appropriate box on its file before saving your changes (image 1).
- 3) You will also need to enter a "**Professional selling price**" (image 2).

- ☰ If none of the mailing lists set up beforehand is suitable, you can always create a new one by clicking on the **"Selecting professionals"** button.
- ☰ You can then create a new list.

### Create an auction on a lot

 Creating an auction sale allows you to select one or multiple vehicles for automotive professionals who are connected to you. This will generate an auction within the PriceBack application where they can then bid on this lot. You will then be able to follow this auction via the "Auctions in progress" tile on the homepage.

Auction broadcast at All professionals (7 profes) **Selecting professionals**

## D) Follow-up of an auction on the lot

- ⚡ Distributors can follow the progress of the auction by consulting its synthesis.
- ⚡ In the case of an auction on a lot, the amount committed by the professionals will be based on the **reserve price of the lot** placed for auction. **(1)**.
- ⚡ The **additional sales margin** generated by the amount auctioned will be displayed **(2)**, as will the profits generated by the last bid received **(3)**.
- ⚡ If the **reserve price (4)** set by the distributor is not reached, all vehicles put up for auction will remain in stock.
- ⚡ If a participant overbids 3 minutes before the end of the auction, the auction will immediately be extended by the same amount of time **(5)**. The end of the extension will be postponed by 3 minutes as long as a participant continues to bid.
- ⚡ Each extension will be recorded in the auction history **(6)**.
- ⚡ Once the auction is over, the distributor will be informed by **email** and by **notification of the result**.
