Vehicles

1 Reminder of the warranty on a transferred vehicle:

Note: after a transfer, a user will have to define again the warranty on the transferred vehicle.

To give sellers a reference point in this context, the previous warranty will be stored to help them choose a suitable warranty.

Example of warranty appearing on a UV before its transfer:

Warranty	
Warranty name	Warranty duration
Multi type	24 month

Origin	
Seller / Buyer	Previous owner
-	-
Purchasing source	
-	

Other data	
Estimated mileage	Estimated start date
500 km	-
Type of tyres	Factory code
-	NW43JD
Car registration document date	
-	

Display of the fields to complete following a transfer between two stocks, where the previous warranty is specified with its designation, duration and type.

Warranty	
Warranty name	Type of warranty period
<input type="text" value="Select a value"/>	<input type="text" value="Label"/>
<small>(Multi type, previous warranty)</small>	<small>(Label, previous duration type)</small>
Warranty duration	
<input type="text" value="Select a value"/>	
<small>(24 months, previous duration)</small>	

Once a vehicle has been transferred to the new entity, the reminder of the previous warranty will also be available when managing the vehicle status in stock.

Manage vehicle status

What do you want ?

Declare to the following status Allow the vehicle to be sold

Switch this vehicle to status "Entrée physique".

Exterior colour * test

Interior colour * TEST VN

Used car origin * Import

Registration * PM674HG

Chassis number * VF1948478XXX2XPL

Police number * Select a policy number

Put into service date * 19/05/2023

Date of entry into stock * 16/05/2024

Mileage * 500 km

CO2 emission (with options) * 100 g/km

Warranty name * Select a value

(Multi type, previous warranty)

Type of warranty period * Label

Warranty duration * Select a value

(Label, previous duration type)

(24 months, previous duration)

When a transfer is validated via an opportunity, it will also be compulsory to enter the new guarantee. A reminder of the old data for the associated warranty will be visible in the window provided for this purpose.

The screenshot shows a modal window titled "Select your warranty" with three dropdown menus and a "Validate" button. The background is a blurred view of a vehicle's details page, including a car image, registration information, and pricing.

Selling price: 15 236,00 €

Delivery pack: - €

Technical characteristics

2 Extension of customer mode to vehicle module tables:

We improved the customer mode in order for the sensitive data to be hidden even when consulting stocks during a sales appointment.

The **Customer** mode is available with the two display modes that show the vehicles stocks: list format and table.

In list format, the number of days in stock will be hidden when a user switches to **Customer** mode.

The screenshot displays the 'Vehicles' module interface. At the top, there is a navigation bar with tabs for Home, Vehicles, Opportunities, Customers, and Management. A user profile 'Client Test 144...' is visible. A blue arrow points to a gear icon in the top right corner, which triggers a tooltip: 'Client mode deactivated. Sensitive sales information is not hidden.'

The main content area is titled 'Vehicles' and includes a search bar, a 'Filters' button, and a 'Display' dropdown menu. Below the search bar, there are filters for 'Please select a status' and 'Sorted by Date of entry int...'. A message indicates 'No filter applied' and '1,102 vehicles'.

The vehicle list shows three entries:

- HYUNDAI I10**: 1.0 63 ECO Intuitive, Essence, 4 CV / 63 ch, 5 D, 120 (g/km), Marron. Price: 5 000,00 € (Incl. VAT). Stock: 18 days. ID: 151.
- MAZDA 2**: 1.4 MZ-CD 70 BASE, DIESEL, 0 CV / 68 ch, 3 D, 190 (g/km), Blanc. Price: 4 200,00 € (Incl. VAT). Stock: 18 days. ID: 124.
- STROU...**: Electrrique, New. Price: 36 850.00 €.

Example: display with **Customer** mode active:

Home Vehicles Opportunities Customers Management AA Client Test 1445 Point de vente - GB

	CITROEN	Electrique	New 36 850.00 €

When consulting stocks of vehicles in table format, additional information will be masked in **Customer** mode:

- Number of days since last price update
- Date of entry into stock
- Adjusted market value
- Employee price incl. VAT
- entry price incl. VAT
- Trade-in price incl. VAT
- Professional price incl. VAT

Presentation of the stock data before activating **Customer** mode:

Example of the presentation of the vehicles table after switching to **Customer mode** :

The screenshot displays a web application interface for managing vehicles. The top navigation bar includes links for Home, Vehicles, Opportunities, Customers, and Management. A user profile icon is visible in the top right corner, with a blue arrow pointing to it. Below the navigation bar, the page title is 'Vehicles'. There are buttons for 'New', 'Export', and 'Print', along with a search bar and a 'Filters' button. Below the search bar, there are two dropdown menus for selection and status, and an 'Add a filter' button. The main content area shows a table of vehicles with the following columns: Model, Version, Type of vehicle, Publication status, Energy, Doors, Colour, Referential quality, Point of sale, Physical presence, and Catalogue price. A blue box highlights the 'Version' column. The table contains several rows of vehicle data, including models like i10, 2, E-BERLINGO, A3 SPORTBACK, Q3, T-ROC, TOURAN, ID.3, and C4. The bottom right corner of the table shows a total of 1,102 vehicles and a 'Need' button.

2 Removal of duplicates in the designations of the vehicles (DEU):

A clarification of the display of finishes on all vehicle designations has been applied in Germany.

The duplicates which were visible in the model names have been removed from the commercial designations.

Example of an old display:

8108

OPC-Line Exterieur-Paket	Fahrassistenz-System: Berganfahr-Assist...

Many documents are impacted by this change:

- request for internal preparation
- checkpoints
- Netto-Export order
- DS Certified order
- Spoticar order
- price displays
- description sheet
- internal second opinion
- UV expert assessment
- Spoticar trade-in estimate
- generic trade-in estimate
- DV-UV displays
- EXPOSE document

This change will also affect the designations sent for publications.
